## *Next DESTINATION 2018*

**Digital Literacy Staff Development**  
A staff development programme for academics, researchers and PS Staff, to increase their understanding of how technology can help support their job role.

**Development of more advanced learning resources**  
The team plan to increase their knowledge of learning resource development tools, such as Articulate 360, to create more effective elearning materials.

**Advice Days and Events**

We are planning a series of advice days and events to help identify ways to make your existing elearning resources more interactive.

**More online course development**

We would like to offer further support for those wishing to develop online CPD.

**Further Research and Evaluation of ePortfolios**

Further research will be carried out to evaluate the usage of the ePortfolio systems currently used across the Faculty of Health and Life Sciences.
