

High-Field NMR facility past events and training

2024

Statistical Tools for NMR Metabolomics Workshop

Thursday 18th January to Friday 19th January 2024

2-day computer-led workshops

2023

The NMR Metabolomics Pipeline Workshop 2023

Thursday 14th September 2023

1-day Workshop covering all aspects of metabolomics analysis from study design to dissemination

ResoN8 NMR week (University of Manchester)

Monday 11th September to Friday 15th September 2023

Northern-8 universities combined bioNMR training week for postgraduates

FEBS Advanced Metabolomics Training Course

Monday 3rd September to Friday 8th September 2023

Week long hands-on course on Metabolomics analysis covering study design, LC-MS, GC-MS, NMR and data analysis.

NERC training Course Windermere

Monday 27th March to Friday 31st March 2023

Week long residential course on multi-omics analysis covering, Genomics, Transcriptomics, Proteomics, Metabolomics and Data integration.

Statistical Tools for NMR Metabolomics Workshop

Wednesday 8th February to Thursday 9th February 2023

2-day computer-led workshop

2022

NMR Protein-Ligand Screening day

Friday 4th November 2022

1-day Workshop covering NMR including ^1H ^{19}F and ^{15}N NMR (1D & 2D) library design, K_D affinities and software solutions.

ResoN8 DOSY Discovery day

Monday 12th September 2022 (Durham, Liverpool & online)

1-day Workshop covering theory and applications of Diffusion Ordered Spectroscopy (DOSY) NMR

ResoN8 NMR week (University of York)

Monday 5th September to Friday 9th September 2022

Northern-8 universities combined bioNMR training week for postgraduates

Statistical Tools for NMR Metabolomics Workshop (online)

Wednesday 23rd February to Thursday 24th February 2022

2-day computer-led workshop

2021

ResoN8 NMR week (online)

Monday 13th September to Friday 17th September 2021

Northern-8 universities combined bioNMR training week for postgraduates

Statistical Tools for NMR Metabolomics Workshop (online)

Thursday 4th February to Friday 5th February 2021

2-day computer-led workshop

2020

ResoN8 NMR week (online)

Monday 7th September to Friday 11th September 2020

Northern-8 universities combined bioNMR training week for postgraduates

Statistical Tools for NMR Metabolomics Workshop

Wednesday 8th January to Thursday 9th January 2020

2-day computer-led workshop

2019

The Metabolomics Pipeline Workshop 2019

Friday 20 September 2019

1-day Workshop covering all aspects of metabolomics analysis from study design to dissemination

Metabolomics Symposium 2019

Monday 8 April 2019

1-day Symposium with sessions on clinical studies, clinical models, microbes and methodology

Statistical Tools for NMR Metabolomics Workshop

Thursday 31 January to Friday 1 February 2019

2-day computer-led workshop

2018

The Metabolomics Pipeline Workshop 2018

Thursday 13 September 2018

1-day Workshop covering all aspects of metabolomics analysis from study design to dissemination

Metabolomics Symposium 2018

Wednesday 28 March 2018

1-day Symposium with sessions on clinical studies, clinical models, microbes and methodology

Statistical Tools for NMR Metabolomics Workshop

Wednesday 10 to Thursday 11 January 2018

2-day computer-led workshop

2017

NMR Metabolomics Workshop

Friday 3 November 2017

1-day workshop

Metabolomics Symposium 2017

Wednesday 29 March 2017

1-day Symposium with sessions on clinical studies, clinical models, microbes and methodology

Statistical Tools for NMR Metabolomics Workshop

Wednesday 22 to Friday 24 February 2017

3-day computer-led workshop

2016

Reson8 Biophysical and Biochemical Symposium

Monday 11 January 2016

1-day Symposium with speakers from all N8 universities

NMR Metabolomics Workshop

Monday 24 October 2016

1-day workshop

2015

NMR Metabolomics Workshop

Friday 30 October 2015

1-day workshop

Learn more about our [PhD's experience](#) at 11th International Conference of the Metabolomics Society 2015.
